

Mixing & Heating

Vortex Mixer

VX-4

Vx-4 vortex mixer is equipped with a upgraded brushless DC motor, allowing 4000RPM at full speed for vigorous and powerful mixing action. Plus, 5 seconds rapid mixing, mixing test tubes up to 50ml.

Features

- **Powerful Mixing Capacity:** VX-4 vortex mixer is equipped with a upgraded brushless DC motor, allowing 4000RPM at full speed for vigorous and powerful mixing action. Plus, 5 seconds rapid mixing, mixing test tubes up to 50mL.
- **Orbital Diameter of 2cm :** This mini vortex shaker provides bigger area to contact with the mixing bottle, fits various types of containers.
- **Touch Operation Design:** Easy one-handed touch operation, the vortex mixer starts working when slight pressure is applied to the center of the silicon cap. Low activation force, easy for repetitive and continuous mixing.
- **Quality & Durable Material:** Its shell is made of sturdy ABS plastic, the cap is made of silicone, and the base is made of zinc alloy, ensuring an extended service life of this vortex mixer shaker.
- **Stable & Quiet Mixing:** Equipped with a brushless DC motor, this mini vortex mixer operates super smooth, quiet, and efficient. Six non-slip foot pads are designed on the bottom, providing extra stability to place this vortex mixer stably on the table.
- **Multiple Color Combinations:** A more beautiful and smooth design, you can choose different color combinations according to your workplace to present a better visual effect.
- **Charge method:** VX-4 adopt the latest type-C interface with a 12V power adapter. The charging cable is long enough to use conveniently.

Характеристики

Model	VX-4
Operation Mode	Touch Operation
Voltage	100-240V 50/60HZ
Motor Power	5W
Material	ABS Plastic + Silicone
Mixing Speed	4000RPM (Fixed)
Max. Mixing Capacity	50mL
Motor Type	Brushless DC Motor
Type of Movement	Orbital
Orbital Diameter	20 mm
Operation Mode	Touch Operation
Protction class	IP42
Permissible Ambient Temperature	41° F-104° F / 5°C -40°C
Permissible Relative Humidity	85%
Weight	0.83 lbs / 380g
Size	3.9" x 3.9" x 2.8" / 10 x 10 x 7 cm

Diverse Application
